

UNLIMITED BUSINESS BROADBAND ANYWHERE IN AUSTRALIA

OPTUS SATELLITE CAN PROVIDE RELIABLE BROADBAND WHEREVER YOU DO BUSINESS

With 100% coverage across all of Australia, SatBroadband Pro is available to business customers no matter where you are located, even where DSL, fibre or cable lines can't reach. With no data limits and business-grade performance, Optus Satellite has the right solution for your business needs.

BUSINESS-GRADE PERFORMANCE

SatBroadband Pro provides a fast and highly reliable broadband connection, featuring symmetrical speeds to access business critical information and cloud based applications.

PROFESSIONAL INSTALLATION

We will send out a technician to install your satellite equipment and verify that your service is up and running.

MANAGED COSTS

With flat rate installation, a fixed monthly service fee and unlimited data, you can plan and predict your IT costs without any surprises.

PROACTIVE MANAGEMENT

Our team of skilled engineers actively monitor your satellite connection during business hours to ensure your service is always connected and running smoothly.

RELAX WITH UNLIMITED

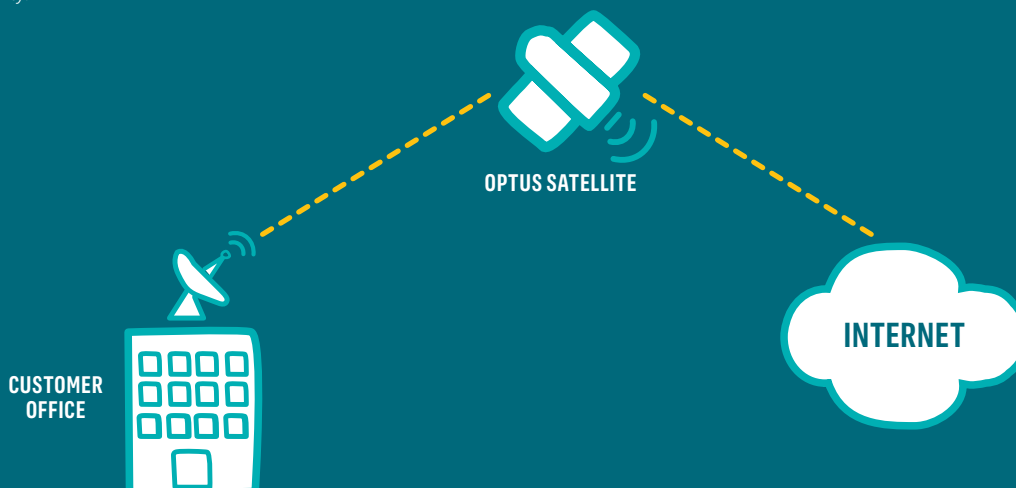

Unlimited broadband means there are no quotas and no excess usage charges, for peace-of-mind when it's bill time for businesses.

RAPID DEPLOYMENT

Connecting your business is fast, easy, and affordable with SatBroadband Pro. We can have you up and running within two weeks of the installation being booked in.

CONNECT ANYWHERE

SatBroadband Pro uses our superior Tier 1 satellite network and best-in-classes service to bring high speed data connections to difficult locations where DSL, fibre and cable are not available or unreliable.

WHAT ARE THE FEATURES OF SATBROADBAND PRO?

- The Optus Satellite SatBroadband Pro Service is a shared service, which means customers share bandwidth pools with a maximum of 2 Mbps download/2 Mbps upload.
- Business grade broadband with unlimited data and no quotas.*
- A Fixed monthly service fee means there are no additional or hidden costs.
- The setup is simplified and fast.
- With 100% coverage, Optus Satellite has the ability to connect to a wide range of locations in Australia.
- SatBroadband Pro offers an availability of 99.85%, making it one of the most reliable forms of communication.**
- Fair share bandwidth allocation between all the users of a same bandwidth pool.
