

Critical Information Summary

Information about the service – ‘yes’ Sat49

Description of the Service

The ‘yes’ Sat49 is for Thuraya Satellite Postpaid Mobile Services. The service uses a Thuraya satellite handset and operates on the Thuraya satellite network. Depending on the handset selected, you can use the service on either the satellite network only, or switch between the Satellite network (Satellite Mode) and Optus 2G network (GSM Mode).

Minimum Term

You can get this plan on a 24 month contract.

The Minimum Total Cost is **\$1,176** on a 24 month contract.

 > For info on charges if you use your service overseas (Roaming) see optus.com.au/roaming

Mandatory goods

You need a Thuraya satellite mobile handset to use this service. It is possible to bring your own Thuraya Satellite mobile handset for use with this service or you can purchase one from us.

The cost of a Thuraya XT satellite mobile handset purchased from Optus starts at \$1,100. This phone can only be used in Satellite Mode.

The cost of a Thuraya XT Dual satellite mobile handset purchased from Optus starts at \$1,540. This phone can be used in both GSM and Satellite Mode.

Special Promotions and Bolt-ons

This summary doesn't include any special promotions or extra value added services (bolt-ons) that you select whilst you have this service.

Optus Mobile Fair Go™ policy

Optus Mobile Fair Go™ policy applies to ‘unreasonable use’, ‘unacceptable use’, ‘commercial purpose use’, ‘non-personal use’ and ‘non-ordinary use’ of this plan. For further details go to optus.com.au/mobilefairgo

Optus Thuraya Service Important Information

The Thuraya Satellite Service is not guaranteed in any location even while in the Thuraya coverage area. This is because satellite calls require a clear line of sight to a Thuraya satellite. Obstructions such as buildings, heavy tree coverage, or people may restrict the signal. For coverage details please see optus.com.au/coverage

- > To use the Thuraya Satellite Service, you must have International Roaming activated
- > When in Satellite Mode, Emergency Dialling is not possible without an active Optus Thuraya SIM card in the handset
- > Emergency Dialling may not be possible while the keypad is locked
- > Emergency Dialling may not operate in all locations or countries overseas when in Satellite Mode (as per international roaming)
- > Satellite calling requires the Australian area code for local landline numbers. eg 02 for a NSW number
- > Sending and receiving SMS between other Australian carriers (for example, Telstra, 3 or Vodafone) and other satellite or international carriers (such as Globalstar, Inmarsat or Iridium) is not guaranteed when your phone is in Satellite Mode
- > Satellite to satellite calls cannot restrict CLI
- > MMS, 1900 services, Premium SMS(PSMS) and Restricted Access (RA) services are not available in Satellite Mode
- > The Thuraya handset does not support Push To Talk (PTT), Optus Zoo, MyZooNow, Mobile IM, TrueLocal, Video Calling, Optus 3G or dual band services.
