

## \$35 MY PLAN PLUS

### INFORMATION ABOUT THE SERVICE

#### How My Plan Plus works

If you use more than 300 minutes during your billing month, we'll automatically give you up to another 200 minutes for \$10. If you then use more than this (so, more than 500 minutes), you'll get unlimited minutes for another \$10.

If you use more than your included data during your billing month (either on your mobile phone or any connected mobile broadband device), we'll automatically give you another 1GB for \$10. Each time you use all of your data inclusion we'll give you another 1GB for \$10, up to a maximum of 60GB additional data on one account per month. Your service may then be restricted or we may continue to charge you at these rates.

At the end of your billing month, you'll automatically be moved back to your plan's inclusions and charges (i.e. Up to 300 minutes and 500MB data).

#### Minimum term

It's available on a 24 month contract. The Minimum Total Cost is \$840 over 24 months (excluding any handset repayments).

#### Data Sharing

My Plan Plus lets you share the data in your mobile plan with up to five SIM-ready mobile broadband devices – like tablets, USB modems and laptops. For each device you add there's a one-off \$5 fee to set up a Shared Data Plan to enable your device/s to share data. For each device we will give you an Optus Data SIM if you need one or if you already have one we'll need to activate it on the Shared Data Plan. You cannot make calls with the Data SIM.

Services that share data may have a service login to My Account which will display all service numbers contributing to or using the shared data pool on the account, and the amount each service has used.

There is a limit of five Shared Data Plans per My Plan Plus service. You can either:

- Bring your own mobile broadband device. It must be compatible with the Optus network. To check that it is compatible and set up to make the most of the Optus network, go to [optus.com.au/compatibility](http://optus.com.au/compatibility)
- Purchase a device from Optus. You can pay for it in full on your next bill or pay it off in 12 or 24 monthly repayments. Refer to Appendix D – Mobile Equipment Payment Plan at [optus.com.au/standardagreement](http://optus.com.au/standardagreement) You can have one device repayment per Shared Data Plan.

#### Data sharing across My Plan Plus & My Plan Business

If you have more than one My Plan Plus or My Plan Business on the same billing account, the included data combines into one data pool, which can be shared by all the devices connected on mobile My Plan Plus, My Plan Business or Shared Data Plans on that account. If you don't want to share data between your services, they need to be on separate billing accounts. Data sharing is only available within Australia.

#### Bundling arrangements

You don't need to bundle this plan with any other Optus service. However, you might be able to get additional discounts if you have another Optus Service.
