Information about the service

The My Plan Plus 12M SIM plans are only available for recontracting Postpaid Mobile Services.

How My Plan Plus works

If you use more than 300 minutes during your billing month, we'll automatically give you another 200 minutes for \$10. If you then use more than this (so, more than 500 minutes), you'll get unlimited minutes for another \$10.

If you use more than your included data during your billing month (either on your mobile phone or any connected mobile broadband device), we'll automatically give you another 1GB for \$10. Each time you use all of your data inclusion we'll give you another 1GB for \$10, up to a maximum of 6GB additional data per month. Your service may then be restricted or we may continue to charge you at these rates.

At the end of your billing month, you'll automatically be moved back to your plan's inclusions and charges (i.e. Up to 300 minutes and 1.6GB data).

Minimum term

This plan is available on a 12 month contract. The Minimum Total Cost is \$360 over 12 months.

Mobile handset

You need a compatible mobile handset. You can either:

- Bring your own handset. To check it's compatible and set up to make the most of our network go to optus.com.au/compatibility
- Purchase a handset from Optus. You can pay for it in full on your next bill or pay it off in 12 or 24 monthly repayments. If you choose a 24 month repayment, just stay on a compatible month-to-month Optus plan until you have paid your handset off.

Data Sharing

My Plan Plus lets you share the data in your mobile plan with up to five SIM-ready mobile broadband devices – like tablets, USB modems and laptops. For each device you add there's a one-off \$5 fee to set up a Shared Data Plan to enable your device/s to share data. For each device we will give you an Optus Data SIM if you need one or if you already have one we'll need to activate it on the Shared Data Plan. You cannot make calls with the Data SIM.

Services that share data may have a service login to My Account which will display all service numbers contributing to or using the shared data pool on the account, and the amount each service has used.
