

## \$30 MY PLAN PLUS 12M SIM ONLY

←..... FOR USE WITHIN AUSTRALIA .....→

### INFORMATION ABOUT THE SERVICE

#### How My Plan Plus 12M SIM Only works

If you use more than your included data during your billing month (either on your mobile phone or any connected mobile/mobile broadband device), we'll automatically give you another 1GB for \$10. Each time you use all of your data inclusion we'll give you another 1GB for \$10, up to a maximum of 150GB additional data on one account per month. Your service may then be restricted or we may continue to charge you at these rates.

At the end of your billing month, you'll automatically be moved back to your plan's inclusions and charges.

#### Minimum term

It's available on a 12 month contract. The Minimum Total Cost is **\$360** over 12 months.

#### Mobile handset

You need a compatible mobile handset. You can either:

- Bring your own handset. To check it's compatible and set up to make the most of our network go to [optus.com.au/compatibility](http://optus.com.au/compatibility)
- Purchase a handset from Optus. You can pay for it in full on your next bill or pay it off in 12 monthly repayments.

#### Data Pool

If you have more than one My Plan Plus (including SIM only), My Plan Business (including SIM Only & Tech Fund), My Mobile Broadband Plus or Mobile Broadband Business plan on the same billing account, the included monthly data allowance will combine into one data pool, which will be shared by all the eligible services on that account. Any unused data in the data pool expires at the end of each billing month.

Services that share data may have a service login to My Account which will display all service numbers contributing to or using the shared data pool on the account, and the amount each service has used.

If you don't want to share data between your services, they will need to be on separate billing accounts.

Data sharing is only available within Australia.

#### Bundling arrangements

You don't need to bundle this plan with any other Optus service. However, you might be able to get additional discounts if you have another Optus service.

#### Special promotions and bolt-ons

This summary doesn't cover any additional special promotions or extra value added services (bolt-ons) that you may also select.

#### Fair Go policy

The purpose of our Fair Go policy is to ensure that all our customers can access our services, and do not use our services in a manner that we consider 'unreasonable' or 'unacceptable', including, but not limited to 'non-ordinary' or 'commercial purpose use' of this plan.

The Fair Go policy also sets out your responsibilities when you use the internet, including any content which you publish online or by email. It also confirms steps we may take to ensure and monitor compliance with this policy as well as setting out our responsibilities to comply with directions from regulatory and other law enforcement bodies.
