

\$60 MY PLAN PLUS 12M SIM ONLY

..... FOR USE WITHIN AUSTRALIA

INFORMATION ABOUT THE SERVICE

The \$60 My Plan Plus 12M SIM Only plan is available to recontracting customers from 30 August 2015, and to new customers from 1 December 2015. Customers that activate a new service onto this plan between 1 December 2015 and 4 January 2016 will get a \$20 monthly credit for the life of their plan.

How My Plan Plus works

If you use more than your included data during your billing month (either on your mobile phone or any connected mobile/mobile broadband device), we'll automatically give you another 1GB for \$10. Each time you use all of your data inclusion we'll give you another 1GB for \$10, up to a maximum of 150GB additional data on one account per month. Your service may then be restricted or we may continue to charge you at these rates.

At the end of your billing month, you'll automatically be moved back to your plan's inclusions and charges.

Minimum term

It's available on a 12 month contract. The Minimum Total Cost is **\$720** over 12 months for recontracting customers or **\$480** for customers who are entitled to receive the \$20/month credit.

Mobile handset

You need a compatible mobile handset. You can either:

- Bring your own handset. To check it's compatible and set up to make the most of our network go to optus.com.au/compatibility
- Purchase a handset from Optus. You can pay for it in full on your next bill or pay it off in 12 or 24 monthly repayments.

Data Pool

If you have more than one My Plan Plus (including SIM only), My Plan Business (including SIM Only & Tech Fund), My Mobile / Broadband Plus or Mobile Broadband Business plan on the same billing account, the included monthly data allowance will combine into one data pool, which will be shared by all the eligible services on that account. Any unused data in the data pool expires at the end of each billing month.

You can also share your data pool allowance with mobile broadband devices on the same account by adding a Shared Data plan (maximum of 5 devices per mobile service with a one-off \$5 set up fee per device). You cannot make calls with the Shared Data Plan.

Services that share data may have a service login to My Account which will display all service numbers contributing to or using the shared data pool on the account, and the amount each service has used.

If you don't want to share data between your services, they will need to be on separate billing accounts.

Data sharing is only available within Australia.

Bundling arrangements

You don't need to bundle this plan with any other Optus service. However, you might be able to get additional discounts if you have another Optus service.

Special promotions and bolt-ons

This summary doesn't cover any additional special promotions or extra value added services (bolt-ons) that you may also select.
