

\$40 MY PLAN PLUS

←..... FOR USE WITHIN AUSTRALIA→

INFORMATION ABOUT THE SERVICE

Eligibility

Services on plans that were launched prior to 11 March 2016 cannot rate plan change to this plan. Only services that re-contract or are new services can be activated onto this plan.

How your plan works

If you use more than your included data during your billing month (either on your mobile phone or any connected mobile/mobile broadband device), we'll automatically give you another 1GB for \$10. Each time you use all of your data inclusion we'll give you another 1GB for \$10, up to a maximum of 150GB additional data on one account per month. Your service may then be restricted or we may continue to charge you at these rates.

At the end of your billing month, you'll automatically be moved back to your plan's inclusions and charges.

Minimum term

It's available on a 24 month contract. The Minimum Total Cost is **\$960** over 24 months (excluding any handset repayments).

New Phone Trade Up

This plan includes the option of New Phone Trade Up. So after 12 months on this plan, you have the option to pay a one-off fee of \$99, return your original mobile handset to Optus in good working order and purchase a new mobile handset on a new 24 month plan. You will also need to sign a separate agreement with our second hand vendor to transfer ownership of your original mobile handset. Alternatively, if you wish to keep your original mobile handset, you can simply pay out the full remaining cost of your mobile handset, including any monthly handset credit that Optus was going to cover. You are under no obligation to use the New Phone Trade Up option and this option is only available to new and recontracting customers from 11 March 2016. For further information please go to optus.com.au/newphonetradeup

Data Pool

If you have more than one My Plan Plus (including SIM Only), My Plan Business (including SIM Only & Tech Fund), My Mobile Broadband Plus or Mobile Broadband Business plan on the same billing account, the included monthly data allowance will combine into one data pool, which will be shared by all the eligible services on that account. Any unused data in the data pool expires at the end of each billing month.

Services that share data may have a service login to My Account which will display all service numbers contributing to or using the shared data pool on the account, and the amount each service has used.

If you don't want to share data between your services, they will need to be on separate billing accounts.

Data sharing is only available within Australia.

Bundling arrangements

You don't need to bundle this plan with any other Optus service. However, you might be able to get additional discounts if you have another Optus Service.

Special promotions and bolt-ons

This summary doesn't cover any special promotions or extra value added services (bolt-ons) that you may also select.

You will also need to pay the pro-rated monthly access fee for your final month and any charges incurred up until the cancellation date. This could include usage that is excluded from your plan or excess fees if you've used more than the included values.

If you cancel your plan, and there are no other My Plan Plus or My Plan Business services on the account, you must also cancel any Shared Data Plans on the account. If you don't, you will continue to be charged for any data usage on these services at \$10 per 1GB within Australia or we may cancel them.

Plan changes

You can change your plan during your contract term provided you move to a plan with a higher monthly access fee. You cannot change your plan during the contract term to a plan with the same or lower monthly access fee. If you change your plan during your contract term a fee may apply and any handset repayments will remain the same.
