

## \$45 MY PLAN PLUS SIM ONLY

..... FOR USE WITHIN AUSTRALIA .....

### INFORMATION ABOUT THE SERVICE

#### How My Plan Plus works

If you use more than your included data during your billing month (either on your mobile phone or any connected mobile broadband device), we'll automatically give you another 1GB for \$10. Each time you use all of your data inclusion we'll give you another 1GB for \$10, up to a maximum of 60GB additional data on one account per month. Your service may then be restricted or we may continue to charge you at these rates.

At the end of your billing month, you'll automatically be moved back to your plan's inclusions and charges (i.e. Unlimited minutes and 3GB data).

#### Minimum term

This is a month-to-month plan.

#### Mobile handset

You need a compatible mobile handset. You can either:

- Bring your own handset. To check it's compatible and set up to make the most of our network go to [optus.com.au/compatibility](http://optus.com.au/compatibility)
- Purchase a handset from Optus. You can pay for it in full on your next bill or pay it off in 12 or 24 monthly repayments.

#### Data Sharing

If you have more than one My Plan Plus or My Plan Business (including SIM Only) on the same billing account, the included data will combine into one data pool, which will be shared by all the services on that account.

You can also share this data with mobile broadband devices on the same account by adding a Shared Data Plan (maximum of 5 devices per mobile service with a one-off \$5 set up fee per device). You cannot make calls with the Shared Data Plan.

- Bring your own mobile broadband device. It must be compatible with the Optus network. To check that it is compatible and set up to make the most of the Optus network, go to [optus.com.au/compatibility](http://optus.com.au/compatibility)
- Purchase a mobile broadband device from Optus. You can pay for it in full on your next bill or pay it off in 12 or 24 monthly repayments. Refer to Appendix D – Mobile Equipment Payment Plan at [optus.com.au/standardagreement](http://optus.com.au/standardagreement). You can have one device repayment per Shared Data Plan.

Services that share data may have a service login to My Account which will display all service numbers contributing to or using the shared data pool on the account, and the amount each service has used.

If you don't want to share data between your services, they will need to be on separate billing accounts.

Data sharing is only available within Australia.

#### Bundling arrangements

You don't need to bundle this plan with any other Optus service. However, you might be able to get additional discounts if you have another Optus Service.

#### Special promotions and bolt-ons

This summary doesn't cover any special promotions or extra value added services (bolt-ons) that you may also select.
