OPTUS MOBILESAT KEEPS YOU CONNECTED ON THE MOVE

OPTUS MOBILESAT MAKES SIMULTANEOUS VOICE AND DATA COMMUNICATION EASY

With an all-in-one solution, users can send and receive voice calls and SMS, and access email, the internet and other applications – all whilst on the move!

The Optus MobileSat service consists of a handset, antenna and transponder, and requires no technical expertise to use. The antenna can be permanently or magnetically mounted to the roof of any suitable vehicle, to provide you with satellite reception regardless of where you are travelling in Australia or New Zealand, as long as you have a direct line of site to the satellite.

Optus MobileSat runs on the Inmarsat Satellite network, and its built-in GPS provides online location tracking information if needed. Optus MobileSat can help industries including transport, mining, oil and gas and government agencies to stay in touch while travelling in remote and unconnected areas.

The extras:

- The above plans and pricing are for singular Optus MobileSat terminals, however we also have fleet plans available on request.
- To find out about the cost of the MobileSat terminal, speak to your nearest Optus MobileSat dealer.
- All prices above are exclusive of GST.
- In-Bundle pricing refers to the applied rates to service whilst inside the monthly allowance. Out-of-bundle pricing are the rates applicable once a customer has exceeded their monthly allowance.
- The online tracking function on the Optus MobileSat incurs additional charges.
- The monthly allowance does not carry over and any unused allowance is lost at the month's end.
- Minimum voice/ISDN/Fax duration is 30 seconds. Minimum data duration is 100KB.
- Voice/ISDN/Fax is charged in 15 second increments. Data is charged in 20KB increments.
- Voice to BGAN/FBB/SBB/GSPS refers to calls made on services which share the Inmarsat satellite network used by MobileSat. Calls to other satellite networks are charged at different rates and available on a separate pricing table.
- Cancellation fees are applicable for early termination of a MobileSat contract. The cancellation fee is dependent upon how much of the contract is remaining.
- Plan upgrades are available and will take effect from the 1st of the following month.
- Special numbers include, but are not limited to, 1300XXXX, 13XXXX, etc.
- For additional limitations or other information about this service, refer to our Standard Agreement at optus.com.au/standardagreements
