Equipment needs

You need a compatible telephone handset to use this service. If your service requires a modem, we will provide you with one as part of your plan inclusion at no extra charge.

This service may not be suitable if you have a serious illness or condition and require an uninterrupted telephone line on an uninterrupted power supply. Some equipment like back-to-base and medical alarms and other devices may not be compatible with the service. You should contact your device supplier to find out if your device will work before connecting to the nbn network.

For information about products and services we offer for customers with different disabilities, please see optus.com.au/about/inclusion-diversity/differing-abilities/disability-services

If you are transferring existing services to Optus nbn™, this may result in the disconnection of those services. If you require assistance to connect, contact us at optus.com.au/notices/service-chat

Special Promotions and Value Added services

This summary doesn't include any special promotions or extra value added services (bolt-ons) that you select whilst you have this plan. Entertainment options may be available and charges may apply depending on your plan. By signing up to an entertainment option, you agree that it is subject to change at any time. We will try to give you at least 21 days' prior notice of a change, however, this does not entitle you to terminate your plan. Changing the access method

We may change the access method for your service for the remainder of your minimum term and move you to:

- A new plan that is reasonably comparable with your current plan; or
- An alternative plan, but only if we take reasonable steps to address any detrimental impact that the change may have on you that is not minor.

If we change your access method, you must provide all reasonable assistance to enable the change to be implemented, including access to your premises and equipment. If we are upgrading you to Optus **nbn™**, by entering into this agreement you are giving your consent for NBN Co. to install their equipment required to connect you to their network. Unless otherwise agreed with you, we will not charge you for installing or equipment we supply to you to use with the changed access method. Alternatively, we may ask you to change your access method during your minimum term even if the change may have a detrimental impact on you that is more than minor.

If you refuse our request, we may cancel the service by giving you at least 90 days' notice. If the service is cancelled, you will be liable for charges incurred up to cancellation, but you will not be liable for any cancellation fee or outstanding equipment charges. We will contact you to discuss the details of any changes we plan to make to your access method prior to making the change.
