Optus Internet Entertainer Lite 100 availability

Optus Broadband services are not available in all areas or to all premises. The broadband service offered will be determined by what is available at your location. Optus Broadband services are only available at premises which can be physically connected to the Optus Network (or, in the case of Optus **nbn**[™], where connection will be possible within three months based on rollout information provided by the **nbn**[™] which is subject to change). There may be technical or commercial reasons that affect our ability to connect a service at your address. Until Optus successfully installs your service we cannot guarantee that the service can be installed at your address. To check your serviceability and find out what kind of Optus Broadband is available at your address visit optus.com.au/serviceabilitycheck

Equipment needs

You need a compatible broadband modem to use this service. The modem must be an Optus approved device. If you are a new Optus Broadband customer we will provide you with a WiFi modem as part of your plan. The cost of the modem is covered by Optus if you stay connected on an eligible Fixed Broadband plan for 36 months.

Please let us know if you use equipment such as disability or medical services or a back-to-base alarm. Some equipment may require an alternative service or additional equipment. We will tell you if we are not able to support the equipment.

System requirements

To use the Optus Broadband service you need to ensure your device is compatible. Please see optus.com.au/systemcompatible

Fetch

This plan comes included with one Fetch Mini Set-top Box (STB). You may also add additional Fetch STBs to your plan for an additional monthly charge (max. of 3 Fetch services per account). Pricing for Fetch Mini and Fetch Mighty STBs on this plan are as follows:

- Fetch Mini (first) – \$0 per month (\$10 charge with a \$10 credit)
- Fetch Mini (each additional) – \$10 per month
- Fetch Mighty – \$15 per month

Fetch requires an active fixed Internet connection and download speed of at least 3.5Mbps, widescreen TV and external TV antenna connection. Video content quality can be affected by equipment, content, location and network congestion. Optus owns the STB and you must return it if your Fetch service is cancelled. If you cancel your Fixed Broadband service, you have the option to retain your Fetch service as a stand-alone service. However, you will forfeit any monthly Fetch credit Optus was providing as part of your plan.

The following fees will apply if an STB is not returned within 30 days of your Fetch service cancellation: \$150 for a Fetch Mini, \$200 for a Fetch Gen 2 and \$250 for a Fetch Mighty STB.

For more information on Fetch, please see optus.com.au/fetch

Installation

Optus reserves the right to charge for non-standard installations. You must obtain permission from the owner of the property, if that's not you, to have Optus Broadband installed, and have someone over 18 years of age in attendance at the appointment. Cable and Optus Direct customers may require a technician to install the service and **nbn**[™] customers may need two technicians (one Optus, one **nbn**[™]) to install the service. For **nbn**[™] services, if you're in a new development and not already connected to the **nbn**[™], NBN Co may charge \$300 to connect your premises to the **nbn**[™]. If applicable, we will bill that charge to you.

If you are an Optus nbn™ customer, Optus will send you an Optus self-installation kit. Installation fees may apply if you request a technician installation where a self-install option is available. If you require assistance to connect, contact us at yesopt.us/chat2us

Optus is required by law to confirm your nbn™ service is working. We may not be able to confirm this if you do not use the modem that Optus supplies you. You need to tell Optus of any issues you have with your nbn™ service before we can rectify them. Billing will be activated once we confirm your service is nbn™ operational.

nbn™ FTTC: If you are an Optus nbn™ FTTC customer and fail to plug in the equipment within 30 days from your ready for service date, NBN Co will cancel your order.
