Equipment Needs

You need a compatible broadband modem to use this service. The modem must be an Optus approved device. If you are a new Optus broadband customer we will provide you with a WiFi modem at no additional cost.

Please let us know if you use equipment such as disability or medical services or a back-to-base alarm. Some equipment may require an alternative service or additional equipment. We will tell you if we are not able to support the equipment.

System Requirements

To use the Optus broadband service you need to make sure your computer is compatible. Please see optus.com.au/systemcompatible

Installation

Optus reserves the right to charge for non-standard installations. You must obtain permission from the owner of the property, if that's not you, to have Optus Broadband installed, and have someone over 18 years of age in attendance if a technician appointment is required to install the service.

Minimum term

The \$115 Big Broadband plan is available as a month to month plan. The minimum total cost is \$240 including a \$125 start-up fee for new customers, when you pay by direct debit.

Bundling arrangements

You don't need to bundle this plan with any other Optus service. However, you might be able to get additional discounts if you have another Optus service.

Optus Fair Go Policy

The Fair Go Policy ensures that all our customers can access our services, and do not use our services in a manner that we consider 'unacceptable', including, but not limited to 'nonordinary' or 'commercial purpose use' of this plan. The policy also sets out your responsibilities when you use the internet, including any content which you publish online or by email. It also confirms steps we may take to ensure and monitor compliance with this policy as well as setting out our responsibilities to comply with directions from regulatory and other law enforcement bodies. You can find the policy at optus.com.au/fairgo

Other information

Changing The Access Method

We may change the access method for your service for the remainder of your minimum term and move you to:

- A new plan that is reasonably comparable with your current plan; or
- An alternative plan, but only if we take reasonable steps to address any detrimental impact that the change may have on you that is not minor.

If we change your access method, you must provide all reasonable assistance to enable the change to be implemented, including access to your premises and equipment. If we are upgrading you to Optus NBN, by entering into this agreement you are giving your consent for NBN Co. to install their equipment required to connect you to their network. Unless otherwise agreed with you, we will not charge you for installing or equipment we supply to you to use with the changed access method.

Alternatively, we may ask you to change your access method during your minimum term even if the change may have a detrimental impact on you that is more than minor. If you refuse our request, we may cancel the service by giving you at least 90 days' notice. If the service is cancelled, you will be liable for charges incurred up to cancellation including any balance for devices purchased on Pay Over Time (POT), but you will not be liable for any cancellation fee or other outstanding equipment charges. We will contact you to discuss the details of any changes we plan to make to your access method prior to making the change.
