

Critical information summary

Number Share Bolt-on

Eligibility

The Number Share Bolt-on is available as an addition to selected Optus post-paid mobile plans. A full list of eligible plans can be found here optus.com.au/numbershare

Each eligible plan can support a single Number Share Bolt-on.

Minimum Term

The Number Share Bolt-on is available on a month to month basis.

Eligible Devices

You need a compatible mobile device and a compatible connected wearable device to take up the Number Share Bolt-on. A list of eligible devices can be found here optus.com.au/numbershare

Inclusions

Data usage in Australia

Monthly data inclusion	500MB
------------------------	-------

All other inclusions are as per the terms laid out in the Critical Information Summary (CIS) of the post-paid mobile service to which your Number Share Bolt-on is attached.

Data Pooling

The data inclusion from the Number Share Bolt-on will be shared with the data allowance of the eligible plan it is attached to. The included monthly data allowance will combine into one data pool, which will be shared by all the eligible services on that account. Any unused data in the data pool expires at the end of each billing month. For more information about data sharing refer to the Critical Information Summary (CIS) for the post-paid mobile service to which your Number Share Bolt-on is attached. This can be found here optus.com.au/shop/cis/

Services that share data may have a service login to My Account which will display all service numbers contributing to or using the shared data pool on the account, and the amount each service has used. The data consumed by the connected wearable device will appear as data consumed by the post-paid mobile service it is attached to, and will not be separately called out.

Special promotions

This summary doesn't cover any special promotions or extra value-added services that Optus may offer from time to time and that you may also select.

Number Share Functionality

Number share functionality is available only for use within Australia. Devices with Number Share enabled can be taken overseas but Number Share functionality will not be available. If you use your post-paid mobile phone overseas, the international rates specified in the Critical Information Summary (CIS) for your post-paid mobile service apply. If you cancel your Number Share Bolt-on or your post-paid mobile service to which the Bolt-on is attached, the number sharing functionality will not be available on your wearable device.

Information about pricing

Minimum monthly charge

The minimum total cost is **\$5** in the first month. Monthly charges will appear on the bill of the post-paid mobile service to which the Number Share Bolt-on is attached.

Cancellation fees

You can cancel the Number Share Bolt-on at your convenience as there are no cancellation fees for the Bolt-on. Cancelling your Number Share Bolt-on will result in the removal of your ability to make use of number sharing functionality of your wearable device.

Cancelling your post-paid mobile service to which the Number Share Bolt-on is attached will trigger a cancellation of the Number Share Bolt-on. For information on post-paid mobile service cancellation fees please refer to the relevant Critical Information Summary (CIS) here optus.com.au/shop/cis/

To cancel your Number Share bolt-on you need to contact us directly. Simply selecting 'remove Optus plan' from the relevant device application or factory resetting the device will not remove your profile and you will continue to incur number share charges on the bill for your post-paid mobile service.

Other Information

For all other information in relation to your service, please refer to the Critical Information Summary (CIS) for your post-paid mobile service attached to the Connected Wearable Device, which can be found here optus.com.au/shop/cis/
